

Bath Source

Porcelanosa

For those who like their lines sleek, their angles sharp, and their tile with a high eye-candy quotient, Porcelanosa's gleaming 7,800-square-foot showroom in the Mart's LuxeHome is a good place to start. Founded in 1970 in a small coastal village in Spain, the company is now one of the best known tile, kitchen, and bath

sources in the world. We're especially intrigued by Woodtech Porcelain Hardwood, a flooring product that looks like wood but can't be scratched, burned, or eaten by insects. *Merchandise Mart, 312-527-7939, porcelanosa-usa.com*
